Learning experience:

If you would like to learn, develop and use a broad range of industry standard skills and techniques to boost your higher education and career prospects, within the Animation & Game Art field then this is the course for you.

For many years this course has supported progression routes to highly prestigious universities within the animation and game art sector. The connections that build these relationships begin when you start your course and develop strongly throughout. Exciting portfolio led projects and lessons delivered by highly skilled professionals support this extremely well established qualification.

Progression routes:

- **After completing this course, students may go on to higher education within Animation & Game Art**
- **Some of our learners choose different routes and progress into employment, higher level apprenticeships or become self-employed within this specific field**
- **Our Graduates have gone on to work at some of the highest profile animation, games and SFX studios in the UK and have won BAFTA, BFX and D&AD awards for their work**
