Uniformed Public Services:

Our courses are designed to help our learners prepare for entry to the Uniformed Public Services. By looking into a wide range of these services, learners can develop an understanding of jobs which appeal to them and evaluate their own suitability to pursue these options.

An emphasis is placed on developing those skills and qualities needed to work in our Public Services. This is underpinned with team working activities, physical fitness testing, outdoor practical tasks, adventurous activities and navigation.

Learners will participate in a variety of work experience activities which will help to enhance their employability skills and give them a broader understanding of our Uniformed Public Services.
